Management Reporter system requirements

Management Reporter for Microsoft Dynamics® ERP components can be installed on any computer that meets the minimum system requirements for the component. Minimum and recommended system requirements for installing Management Reporter are listed below.

Note: All Management Reporter users must have Active Directory domain accounts for authentication. For more information, see the "How to create a domain account in Active Directory" article on MSDN (http://msdn.microsoft.com/en-us/library/aa545262(CS.70).aspx).

Component	Minimum	Recommended	Notes
All	• Windows Installer 4.5 • Microsoft .NET Framework 4.0 client profile	• Same as minimum	
Client	• 1.0 GHz processor or higher (x86) / 1.4 GHz processor or higher (x64) • 500 MB available hard disk space • 512 MB RAM or higher • Windows XP Professional with Service Pack 2 or later -or- Windows Server 2003 Standard Edition or later	• Dual Core processor or higher • 500 MB available hard disk space • 2 GB RAM or higher • Windows 7 Professional Edition	
Application server	• 2.4 GHz processor or higher • 1 GB available hard disk space • 2 GB RAM or higher • Windows Server 2003 Standard Edition or later • Internet Information Services (IIS) 6.0 • WCF HTTP Activation • ASP.NET	• Dual core processor or higher • 1 GB available hard disk space • 4 GB RAM or higher • Windows Server 2008 Standard Edition or later • Internet Information Services (IIS) 7.0 • WCF HTTP Activation • ASP.NET	
Process server	• 2.4 GHz processor or higher • 1 GB available hard disk space • 2 GB RAM or higher • Windows Server 2003 Standard Edition or later • Microsoft Access Database Engine 2010 Redistributable	• Dual core processor or higher • 1 GB available hard disk space • 4 GB RAM or higher • Windows Server 2008 Standard Edition or later • Microsoft Access Database Engine 2010 Redistributable	• The Microsoft Access Database Engine redistributable is required for the process service to read report data from Excel workbooks.
Database	• Microsoft SQL Server 2005 Express Edition or later	• Microsoft SQL Server 2008 Standard Edition or later	• Database maximum size is 4 GB on SQL Server Express editions. • Case insensitive database collation
Management Reporter Migration Wizard	• 1.0 GHz processor or higher (x86) / 1.4 GHz processor or higher (x64) • 500 MB available hard disk space • 512 MB RAM or higher • Windows XP Professional with Service Pack 2 or later • -or- Windows Server 2003 Standard Edition or later • Microsoft Access Database Engine 2010 Redistributable	• Dual Core processor or higher • 500 MB available hard disk space • 2 GB RAM or higher • Windows 7 Professional Edition • Microsoft Access Database Engine 2010 Redistributable	• The Microsoft Access Database Engine Redistributable is required for the Migration Wizard to read data from FRx 6.7 databases.
